Forecast for Friday 13 Aug 2021

Weather: Mostly cloudy with widespread heavy showers, mostly across the west of the area at first. Some longer spells of rain are likely across Lochaber and southern parts of Wester Ross. Chance of an isolated thunderstorm.

Chance of cloud free mountain/hill tops above 800m: 70%

Visibility: Generally very good outside of cloud and rain with good air clarity. Poor in cloud down to 700 metres in the southwest of the area which may widespread at first, and locally elsewhere in heavy showers. Best area for cloud free summits will be in the far north and around Ben Wyvis.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Summit gales will lead to slow progress, drenching showers and significant wind chill under cloud cover.

Forecast for Saturday 14 Aug 2021
Weather: Rather cloudy with scattered showers, although these lighter and less frequent than on Friday. Becoming mainly dry by evening.

Maximum wind: Northwesterly gusts to 40 mph, winds easing later in the afternoon

Chance of cloud free mountain/hill tops above 800m: 70%

Visibility: Generally very good with good air clarity. Areas of cloud down to 600 metres at times, especially in the north of the area.

Temperature: **Glens:** Plus 9 rising to 16 Celsius
At 800m: Plus 10 Celsius
Freezing level: Above summits
